

# SABL Land Grab in Papua New Guinea

## How much land has been stolen?

Central Province  
(29,682 Km<sup>2</sup>)

Northern Province  
(22,706 Km<sup>2</sup>)

The total area covered by Special Agriculture Business Leases (SABLs) is **5.2 million hectares** (52,000 square kilometers).

This is the same as the land areas of the Central and Northern Provinces combined!

[www.actnowpng.org](http://www.actnowpng.org)

5.2 million hectares is equivalent to about **7.4 million rugby fields:**

which, if laid end to end would stretch for **740,000 kilometers!**

That's all the way to the moon and almost all the way back!
