

Women's group,
sorting coffee beans,
Coffee Connections Depot,
Goroka

Coffee is grown in 16 of the 22
Provinces in Papua New Guinea

Coffee growing supports 3 million
people in PNG. A large proportion
are women and children.

Revenues from coffee declined
by **25%** between 2016 and 2018!

The Government must take **EFFECTIVE ACTION** to support coffee farmers and all customary
landowners involved in small and medium scale agriculture - **IT IS THE BACKBONE OF OUR NATION!**
